# OVERVIEW

The DeFi expanded immensely through the years of innovating the use-cases of projects. For over 3 years, new features have been introduced to the crypto-space including Yield and NFT farming, Staking, & Liquidity Mining. All of them relatively function the same way by enabling participants to lock their tokens to earn rewards.

Aforethought that it is innovative and valuable in the crypto-space, it exposes a downside: Impermanent Losses (IL). Impermanent Losses creates chaos for long term investors or holders as it naturally depreciates the value of the token over time. We have strategized a solution that will ease the need of staking and farming excluding it from the project features.

ZODIAC NETWORK is a liquidity generation and autonomous yield protocol that aims to reward its holders directly and increase the liquidity at the same time. ZODIAC NETWORK will also enable users to farm their ZODIAC tokens to earn ZODIAC NFTs.

Using a 10% tax taken from each and every transaction gets funded.

Additionally, the protocol allows its investors to earn additional tokens by holding ZODIAC NETWORK tokens.

What ZODIAC NETWORK wants to achieve:

No need to deposit, farm or stake ZODIAC NETWORK.

By simply holding your \$ZODIAC, you'll get more coins.

# OVERVIEW: TAXATION & TRANSACTION FEE

The ZODIAC NETWORK aims to provide a great strategy that generates rewards autonomously being a Decentralized Finance entity.

The ZODIAC NETWORK ecosystem will get liquidity primarily from transaction taxes and allocating 7% of which to the liquidity lock and another 3% for the distribution to its existing holders.

## TRANSACTION FEE & BREAKDOWN

70% will be converted to \$BNB/\$ZODIAC to be locked in liquidity irreversibly.

30% will be distributed to holders.

PISCES

# REFLECTION

ZODIAC NETWORK stays within the ecosystem, rewarding its investors for holding, receiving 3% of every transaction fee being distributed to each holder.

The holders would be rewarded for the success of ZODIAC NETWORK with higher transaction volumes.

With this mechanism, ZODIAC NETWORK sought investors with an active stake to get successful.

# ZODIAC NFT FARMING

Supporters of ZODIAC NETWORK can farm their NFT in the Farming Platform. While staking ZODIAC Token, one can earn points called “Fortune”, that can be used to buy NFT in the collection page.

## What is Fortune?

Fortune is an exclusive earned points that gives incentive while farming at ZODIAC NETWORK. The accumulated Fortune attained can be used to buy and to have NFT cards in the ZODIAC collections.

# LIQUIDITY POOL

ZODIAC NETWORK was launched with an initial supply of liquidity in the form of \$BNB/\$ZODIAC LP Tokens.

- The ownership of the tokens was renounced by locking them to Unicrypt.

The future LP Tokens that is going to be produced from the 10% of all the transactions will be renounced by sending them to the burn address: 0x000000000000000000000000000000000000000dEaD

This needs to be done to protect investors by preventing the possibility of a rug pull via liquidity removal.

Additional liquidity is automatically added to \$ZODIAC from the 10% fee that is generated from each transaction.

The fee is added to the liquidity pool by transforming it into \$BNB/\$ZODIAC LP Tokens, with ownership of the tokens renounced by sending them to the burn address.

Additionally, the token has a permanently increasing price floor in addition to an effectively reducing circulating supply of ZODIAC NETWORK that are locked in the liquidity pool.

CANCER

# LIQUIDITY LOCK

Liquidity locking: Forever.

To ensure that ZODIAC NETWORK is unruggable, we continuously “burn” these tokens, thereby locking liquidity forever. The burns are completely transparent, visible on the blockchain, and performed daily.

LEO

# SAFETY

We consider the safety of holders funds incredibly seriously, and in this manner we have taken the accompanying measures to ensure our community:

- 01 Initial LP Tokens Lock
- 02 Regular Burns of All New Protocol Generated LP Tokens
- 03 Contract Audit In Progress with Industry Leader DessertSwap
- 04 .005% Team Wallet Allocation
- 05 Token Sale for the Initial Liquidity
- 06 No Minting Function Present Within the Contract

\* Thus, ZODIAC NETWORK is unruggable, with no single holder capable of minting new tokens, eliminating Protocol Generated Liquidity, or dumping tokens available.
